Editorial

Preeminence, an interdisciplinary journal is committed to staying that way. Different boards of the journal and me as editor are determined not to introduce area editors or tracks into our structure. The editorial advisory board are all broadly experienced and broadly qualified people, each able in our judgment to handle the full range of manuscripts that *Preeminence* receives.

The team members of *Preeminence* is very pleased to announce that 2011 was a good year for the 'Preeminence'. We received 65 submissions, of which 47 were new manuscripts. All the manuscripts were sent to the expert members of review committee and some of the members of peer team of the *Preeminence*. Total 25 manuscripts were finally recommended by the reviewers and ultimately published in two subsequent issues of the journal. In the year 2011, first issue contained a total of thirteen and second issue contained twelve articles/research papers.

The members of editorial board and advisory boards recommended that more papers/articles should be included in the current issue and hence it was finalized to publish a total number of 30 papers/articles has been published in the current issue of the *Preeminence*. The office of the Editor has received a good number of subscription request from different national and international institutions.

I have faith on different boards of the *Preeminence* and the contributors that the *Preeminence* will reach on the sky high level of quality.
